"Scissors and Paste."

"Scissors and Paste" is the name of a unique publication gotten out by the Manufacturers' Association. It contains no original articles, but is built up with articles clipped from the State press bearing upon the all-important subject. These are pasted in columns and pages and photographed on zinc printing plates from which the paper is printed. Thus each article appears in the same type and under a miniature heading of the paper in which it originally appeared. This neatly acknowledges the original publisher and at the same time adds to the appearance and interest of "Scissors and Paste," which is not gotten out so much for distribution as it is to furnish the State press with ready articles and show each paper what the others are doing. —Pacific Typograph.
